Dear <<Insert Name>>:

As you may be aware, the Montana Department of Public Health and Human Services (DPHHS) recently announced that hackers gained entry to an agency computer server. We want to reassure you that at this time, we have no knowledge that any information on the server was used inappropriately, or was even accessed. We apologize for this incident and want to provide you with information on what happened and the steps we are taking to protect you.

### What happened?

On May 22, 2014, an independent forensics investigation determined that an agency computer had been hacked. The forensic investigation was ordered on May 15, 2014 when suspicious activity was first detected by DPHHS officials. As soon as the suspicious activity was discovered, agency officials immediately shut down the server and contacted law enforcement.

The information on the server may have included your name, address, date of birth, Social Security number, and bank account number. None of your information was lost as we have a complete back-up of the information.

### What is DPHHS doing to protect your information?

We have no reason to believe that any information contained on the server has been used improperly or even accessed. However, we want to let you know that this happened and assure you that we are diligently investigating the incident. Out of an abundance of caution, we are offering a one-year membership to a product that will help detect possible misuse of your personal information and provides you with identity theft protection support focused on immediate identification and resolution of identity theft. The product is Experian's® ProtectMyID® Alert. We will cover the cost of your membership to ProtectMyID Alert, and enrolling in this program will not hurt your credit score. Unfortunately, due to privacy laws, we are not able to enroll you directly. For more information on ProtectMyID Alert and instructions on how to activate your complimentary one-year membership, please see the instructions included in this letter.

If you have any questions or need further assistance, please call our incident response line at 866-940-3613 from 7 A.M. to 7 P.M. (Mountain Time). Or you may visit [www.dphhs.mt.gov](http://www.dphhs.mt.gov) for more information.

Again, we sincerely apologize for this incident. Please be assured that protecting your information is a priority for us. In addition to all we have already done to date, we are taking additional steps to strengthen and enhance the security of information on our servers.

Sincerely,
